PROFESSIONAL SUMMARY

Advanced Information Systems Engineering student (UTN-FRC) focused on backend development, databases and process automation. Hands-on experience building REST APIs with Node.js, Express and Sequelize, modeling relational databases, and analyzing and redesigning processes with a focus on efficiency and error reduction. Advanced English. Looking for my first professional experience in a development, data or digital innovation team.

EDUCATION

Information Systems Engineering *Expected graduation: late 2028*
Universidad Tecnológica Nacional – Facultad Regional Córdoba

High School Diploma in Economics and Business Administration *2020*
Colegio La Salle – Argüello, Córdoba

TECHNICAL SKILLS

- **Languages:** Python, SQL, JavaScript, HTML, CSS
- **Backend:** Node.js, Express, Sequelize, REST APIs, Object-Oriented Programming
- **Databases:** SQL Server, MySQL, SQLite, relational data modeling
- **Data analysis:** Excel, Power BI
- **Tools and environments:** Git, GitHub, Windows, Linux
- **Methodologies:** Agile methodologies, process analysis and redesign, KPI definition

EXPERIENCE

Investment Management System (Web Application) *Personal project | 2025*
Node.js · Express · SQL · Relational modeling
- Designed and developed a web application to manage investors, loans and financial transactions.
- Implemented the backend logic and the relational data model to centralize information.
- Developed an API focused on control, traceability and efficient management of the system.

Online Bookstore Management System *Academic project | 2024*
Express · Sequelize · SQLite · HTML · CSS · JavaScript
- Developed a RESTful API to manage books, authors and publishers.
- Modeled and implemented the relational database in SQLite.
- Built the frontend and integrated the interface with the backend through REST endpoints.

Process Improvement in Municipal Health Centers *Academic project | 2025*
Process analysis · KPIs · Digital transformation
- Analyzed and redesigned the medical care process with a focus on efficiency, accessibility and error reduction.
- Proposed an integrated digital system for appointments, prescriptions, authorizations and medication dispensing.
- Defined key performance indicators (KPIs) and an implementation timeline for continuous improvement.

LANGUAGES

Spanish: native | **English:** advanced (spoken and written)

SOFT SKILLS

Teamwork · Problem solving · Service orientation · Continuous learning
